INTERNSHIP

Python Full Stack Developer Intern | 2021 One Team Solutions, Kochi

PROJECTS

- **Labourers Connect – Job Portal (Python-Django)**
Built a job portal connecting employers, labourers, and contractors with real-time job postings, applications, and notifications. Features include custom authentication, Google Maps integration for location-based job listings, and a rating/review system to ensure trust and transparency.
- **EV Charging Station Finder (Mini Project | Python-Django)**
Developed a web application to help users locate nearby EV charging stations with map integration and route planning for efficient travel.
- **Turf-Slot Booker (React.js)**
Designed a web application for booking football turf slots with real-time availability checking and an easy-to-use interface for players and turf owners.
